### ***A few points to consider when choosing your size***

\*Please have a bridal shop, professional seamstress or tailor take your measurements in order to get an accurate measurement. It is extremely difficult to get accurate results when taking measurements yourself.  
\*Remember that all garments are ordered according to a sizing standard. These gowns are not made custom to your measurements. Be sure to choose the size that will accommodate your largest measurement. A gown can be taken in, but not let out.  
\*These garments run differently from that of ready to wear. It is customary that you may need to order one to two sizes larger than your average dress size.  
\*If you are taller than 5'8", we recommend you order extra length. Please specify in the notes section, and note that there is an additional charge.  
\*Dresses size 16/18 or larger have an additional size charge. Please don't let this dissuade you from ordering the proper size. Alterations and additional fabric to correct an ill fitting dress could cost more in the long run.  
\*As this garment is a special order purchase, it is a final sale. No refunds or exchanges are available.
